There are no restrictions on the number of times a file can be downloaded. If only we could, we surely would! On the other hand, using file can actually save you money. Simply upload your file and share the link. When you use file, you avoid storing the file you're sending in your cloud storage or mailserver.

Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. Our service is completely free for everyone. You can upload any type of file (movies, music, documents, images, zip files and more). The cost of that data transfer is covered by your internet service or the data plan on your phone. Unfortunately, we can't make that part free. No account or credit card is required to get started. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps.
